# Welcome to the Team Management Platform of the Future!

Implement blockchain to the Company and School administration, Grab digital assets early.

Lingker is a startup that was founded to solve problems in the team management and administration process. Where at this time we have to use many different applications to manage teams start from absent applications, chat, task management and media/content training management. It is hard to know the performance of team members instantly as quickly as needed. Lingker tries to make reports that are usually made manually will become easier and without any more intervention to manage them. Lingker Project is a very ambitious project. Not only focusing on the problems that exist today, Lingker tries to solve problems that may arise from the development of the learning process, working, and communicating. Lingker believes that the process of working and studying remotely will be adopted and become an option other than carrying out these activities conventionally soon. Opportunities like this will make everyone have the same opportunity to get a quality education, a better job and income.

In the process, every time spent by someone to carry out both formal and non-formal activities is a value that must be appreciated good or not the results obtained. Based on this, Lingker uses the "LINGPO" point system that users will get from each activity when using the Lingker application. These points can be used to get various conveniences for use in the Lingker ecosystem, exchange them for online courses, send tips to colleagues, exchange them for discount vouchers and much more.

Lingker is aware, the value of goodness and the results of the Lingker users must be have a value in other universes (Another Metaverse). Therefore, Lingker issues digital assets in the form of Crypto Tokens that run on the Binance Smart Chain network. This token will be used for utility purposes in the Lingker ecosystem soon. Lingker tries to create a world where work, personal matters and school become separate and not interfere each other. We can work with an employer without having to show our personal details before. We can choose our "Face" while working.

How can this work?. Lingker will create a system to validate Skills and abilities that can be selected and followed by each User, all results from the assessment will be stored and signed with a smart contract on the blockchain in the form of NFT and become an unique Badge. personal data is only used during the skill validation process and will not be stored in Lingker smart contract information, this process will require a certain amount of LINGKER token assets. Employers can easily find talent based on the ability and portfolio of Users objectively (Additional tests may be carried out by the employer, Lingker will prohibit the collection of personal data for this process).

# WHY ARE WE HERE ?

LINGKER.ID

## **We aim to make education and knowledge about anything easy to access and Decentralized**

We are people who realize that the productive period does not start when we are adults and ready to work. The activities we do since school age is the most productive period. Here we are aware that this productive period can be converted into certain commercial values starting from daily activities by presenting a platform that can be used functionally and gives everyone broad access to digital assets.

# Super Apps to manage your team administration

Stop wasting time creating work Productivity Reports. Do your work and be consistent with the liner. We will make a report as soon as someone requests it.

With a Lingker all the tasks assigned and completed will be very meaningful for the team and yourself.

Don't worry, Lingker is provided attendance and productivity report of your self or your team everytime you requested.

# WHAT PROBLEM DO WE WANT TO SOLVE?

01.

## Many Apps To Manage

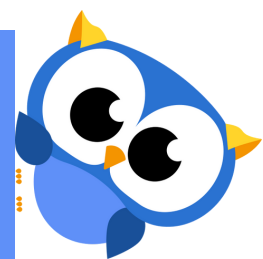

Managing team, attendance, student assignments, worker assignments, assessing work results and getting reports as quickly as when ordered are things that cannot be done at this time. need multiple tools to manage many different teams either divisions in the company or classes at school

**Solution**

## Super Apps Management Platform

One apps to manage your administration team, Management task for school and company with instant scoring and point sistem, Attendance with location based and photo, Announcement with instant feedback and Easy to access the important information

02.

## Reporting Administration

Many applications are used, however they only provided the connectivity requirements. The formal report for attendance and productivity have not been provided.

**Solution**

## Reporting Ready

All productivity reports are ready to be generated, Know faster which team members need more help and attention and which ones need to be rewarded.

03.

## Conventional Grading System

Points, congratulations, certificates of appreciation, these are things we usually get if we succeed in doing a job, or a test question at school, there is no clear calculation in this system, where the time that has been spent should be more valuable than wages or nominal value on a diploma or certificate of appreciation.

**Solution**

## Crypto Reward and NFT

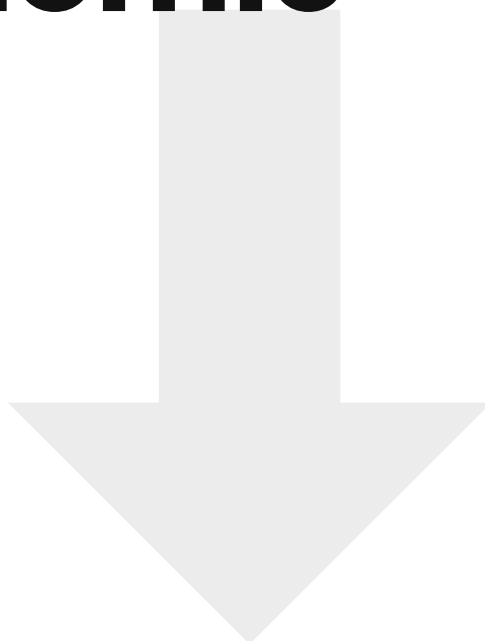

Get Crypto and or NFT for your achievement, with full liquidity when you need some fund.

lingker token

**tokenomic**

## Lingker token

# UTILITY

Lingker token is an utility for Lingker ecosystem which can swap into a training/ course content and upgrade accounts/features in the app. giving employees a daily reward with a small amount of Tokens will make more sense than giving 1 penny in cash. This will increase the usefulness of the Token utility to reward a co-worker, Course Educator/Coach or someone who helps you answer on the forums.

Lingker token

# Auto Reward?

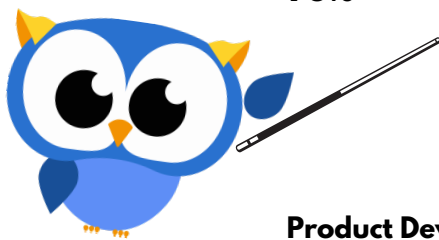

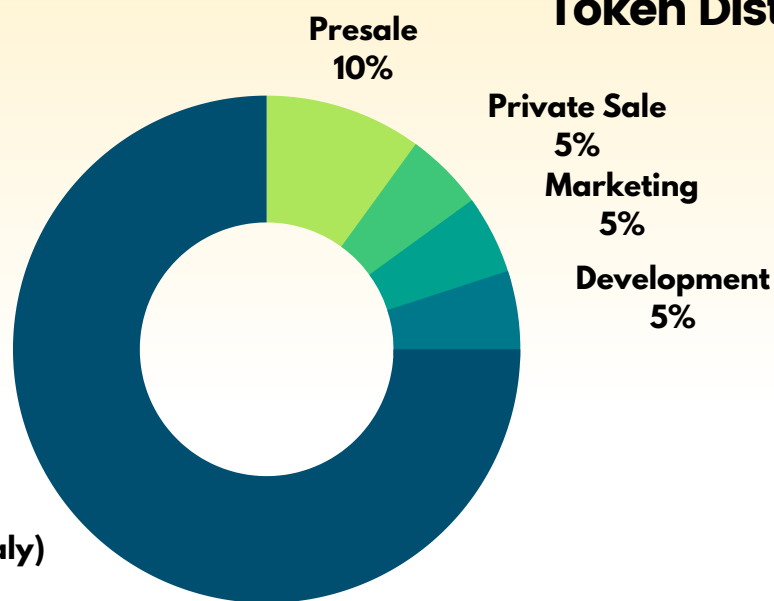

We don't include automatic reward capabilities in smart contracts. Instead, we will develop a staking web page that can be used by Lingker Token holders. We will describe this development roadmap in the next version of the document.

# LINGKIER

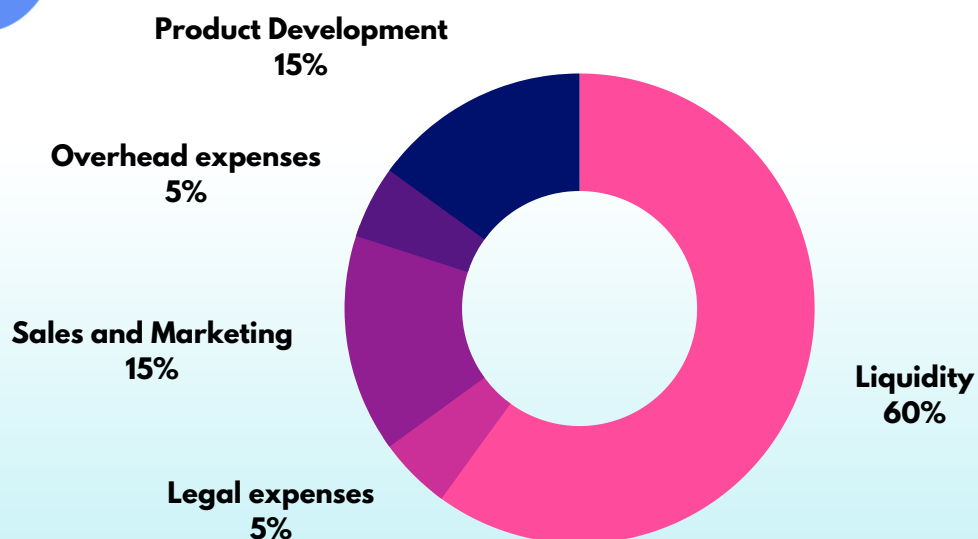

# SUPPLY

total supply  
**2,000,000,000,000**

16 & 17 Nov 2021 | 19:00 PM ( GMT+7 )

## Private sale

- Minimum Buy 0.1 BNB / Transaction
- Maximum Buy 2 BNB / Transaction

15 Dec 2021 | 19:00 PM ( GMT+7 )

## PancakeSwap

LP LOCK 1 Year

28 Nov 2021 | 19:00 PM ( GMT+7 )

## Presale & Airdrop

- Minimum Buy 0.01 BNB / Transaction
- Maximum Buy 0.5 BNB / Transaction
- Airdrop and Referral Amount TBA

# Future Roadmap forecast

## Q4 2021

- Lingker App IOS version
- Token sale

## Q1 2022

- CoinMarketCab & CoinGecko Listing
- Listing Others Exchange
- Upgradable account for Lingker Mobile Premium Account
- Burn 3%

## Q2 2022

- Educational game and Quiz In app
- Provide for buy Lingker Token In Apps with conventional payment, gain new holder massively
- withdrawal Token to private wallet
- Burn 5% from Burn Allocation
- Marketing Boost
- Web Staking

## Q3 2022

- Online Training & Course engine integrated In app Purchase.
- Send Token in App to other user as an rewards and other gamification
- NFT market
- Burn 10% from Burn Allocation

WHAT IS NEXT?

**Make sure you are with us at this stage, digital signature, document authenticity validation, Lingker MetaVerse and IPO for the next 5 years will in our path.**
